

American Council on Education  
Corporate Programs

February 15, 2006

Dear Colleague:

The American Council on Education's "ACE CREDIT" Program has reviewed quality training and education courses for many corporations, businesses, and training providers across the country. Through this letter, we want to introduce you to one of the most recent organizations joining the college credit recommended ACE CREDIT network - Nouveau Riche Corporation. Nouveau Riche had several of its real estate courses successfully reviewed and recommended for college credit.

During the review, a team of content specialists selected from college faculty, reported that Nouveau Riche Corporation courses are comparable to college level courses and may be used as transfer credit at many colleges and universities. (See enclosed course catalog). Adult learners who successfully complete these courses may apply their credit recommendations to academic degree programs at over one thousand accredited colleges and universities nationwide.

In addition to the Nouveau Riche Corporation, Delta Air Lines, Fidelity Investments, General Motors University, Learning Tree International, McDonalds Corporation, Walt Disney World Resort, and many others offer ACE college credit-recommended courses.

I hope you will take some time to explore what Nouveau Riche Corporation has to offer. Feel free to visit their corporate website at [www.inwiththenew.com](http://www.inwiththenew.com) for more information on this real estate investment education company. If I can be of assistance or provide more information on the Nouveau Riche Corporation courses, please don't hesitate to contact me directly.
